PROFESSIONAL SUMMARY

Bootcamp-trained full-stack developer who builds web apps with React and Node.js and tests them across browsers, screen sizes, and APIs. Earlier work in front-end QC, graphic design, and shift management.

TECHNICAL SKILLS

Stack: JavaScript (ES6+), HTML5, CSS3; React, Node.js, Express.js, Tailwind CSS, REST APIs
Data & Tools: MongoDB, Mongoose, Git, GitHub, Vite, Postman
Testing: Manual, exploratory and responsive testing; API testing in Postman; cross-browser testing (Chrome, Edge, Brave)
Design: Adobe Illustrator, responsive web layouts, visual hierarchy
Languages: Thai (Native), English (Basic)

FEATURED PROJECT

Atelier De Flora — Full-Stack Developer (Generation Thailand JSD#13, team of 5) 2026

Storefront for ready-made and custom bouquets | Live demo
React 19, Vite, Tailwind CSS, React Router, Axios • Node.js, Express.js, MongoDB Atlas • Stripe PromptPay QR, Google Gemini API

- Built JWT authentication (login, register, refresh, logout) with httpOnly cookies and bcrypt password hashing.
- Built admin modules for product catalog CRUD and order management.
- Built navigation, product catalog, featured items, and purchase history pages.
- Built a Postman collection of 14 Auth and Product requests to verify each endpoint's status codes and responses.
- Fixed an access-control flaw where the server trusted a client-sent userId; it now reads the userId from the JWT.
- Fixed requests breaking after the 15-minute token expiry by adding an axios refresh-token interceptor.

WORK EXPERIENCE

Shift Manager — PH Capital Company Limited Jun 2023 – Sep 2024

- Rotated as one of three restaurant shift managers and built the schedule for a team of 5.
- Ran inventory control through festival-day peaks, including a weekly Monday stock count.
- Resolved wrong orders on the spot without stalling the line and trained staff on first-line fixes.

Front-End Developer & QC — Versatile Haus Mar 2023 – May 2023

- Developed responsive front-end templates.
- Tested 20 client-facing templates in Chrome, Edge, and Brave using DevTools before handoff; most defects were responsive-layout issues.

Graphic Design Intern — Versatile Haus Mar 2021 – Sep 2021

- Designed web layouts, banners, and marketing assets for e-commerce clients in Adobe Illustrator.

EDUCATION & CERTIFICATION

Generation Thailand — Junior Software Developer Program (Cohort 13) Jun 2026 – Oct 2026

- 14-week full-time bootcamp: MERN stack, Agile, Git/GitHub team workflows. Certificate of Completion.

Phrae Technical College 2019 – 2023

- Higher Vocational Certificate in Computer Technique, GPA 3.20 (2023)
- Vocational Certificate in Computer Technique, GPA 3.27 (2021)
